

Introducing FlexMove the Truly "Flexible" Plastic Chain Conveyor System for All Industries

Truly Flexible with unlimited conveying options.

FlexMove Intelligent Transportation System is designed to provide flexible conveying solutions for all industries. This unique system employs a side-flexing plastic chain, allowing horizontal turns and elevation changes within a single continuous run.

How do we offer optimization in capital investment, space and time? Our cost-effective system provides vast amount of layout capability, minimal components variation, design simplicity, efficient space utilization, enhanced productivity and ease of installation. This unique yet aesthetic design is flexible, clean, self-lubricating, low noise, low friction, low maintenance, corrosion-free and lightweight.

Comprehensive Conveyor Range Offering:

1.38" (35 mm) to 39.37" (1000 mm)

Food, Beverage & Dairy

Household Consumables

Personal Care

Pharmaceutical

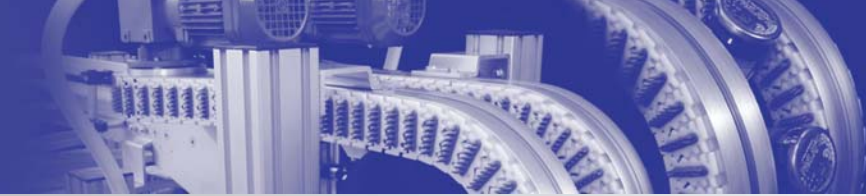

Automotive

Paper Converting & Packaging

Electronics & Electrical

Industry Applications

Food, Beverage & Dairy Industry

| | |
|---------------------|----------------------|
| Biscuit | Ice cream |
| Bread | Butter |
| Instant Noodle | Metal and Paper Cans |
| Candy | Milk Powder |
| Cereal | Pet Food |
| Cheese | Snacks |
| Chewing Gum | Chocolate |
| Soft Drink | Coffee |
| Sugar | Confectionery |
| Tea | Frozen Food |
| Yogurt | Juice |
| Glass & PET Bottles | |

Automotive and Machined parts Industry

- Air and Oil Filters
- Gear Wheel
- Bearings
- Piston
- Casting Part
- Power Window Motor
- Compressor
- Spark Plug
- Front and Back Lights
- Speedometer and Electronic Instrument
- Fuel Pump
- Air Bag Control Units

Electronics and Electrical Industry

- Audio and Video Appliances
- LCD and Electronics Display
- Battery
- Mobile Phone
- Compact Disc
- Substrate
- Computer Parts
- Bulbs
- Electrical Equipment
- CRT
- Hard Disc Drives

Personal Care, Medical and Pharmaceutical Industry

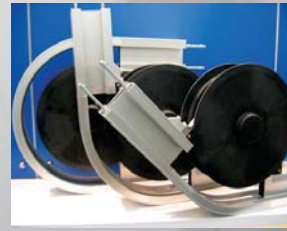

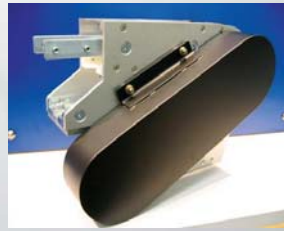

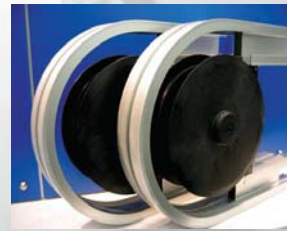

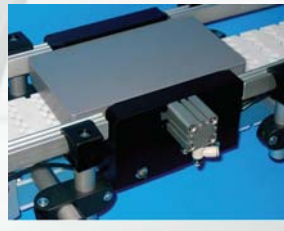

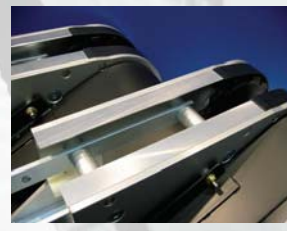

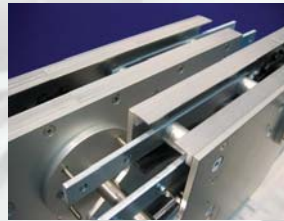

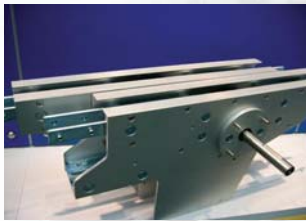

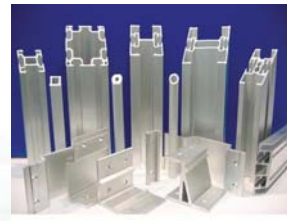

| | |
|------------------|----------------------|
| Aerosol Can | Soap |
| Perfume | Deodorant |
| Baby Oil | Syringe |
| Pills | Eye Care Products |
| Body Lotion | Surgical Instruments |
| Detergent | Health Supplements |
| Cosmetics | |
| Shampoo | |
| Dental Equipment | |
| Shower Cream | |
| Dental Floss | |

Paper Converting and Packaging

| | |
|----------------|------------------|
| Tissue Roll | Diapers |
| Bags | Bundles |
| Kitchen Towels | Sanitary Napkins |
| Boxes | |

Comprehensive Pre-engineered Components

The **FlexMove** comprehensive range of standard and modular components is manufactured with the latest technological advancements in aluminium extrusion and casting, precision fabrication, injection molding and metal forming methods. The end result is a collection of high-quality components within precise manufacturing tolerances. Through the concept of standardization and interconnectivity, all **FlexMove** components can be easily connected and installed using hand tools. This feature allows the system to be installed or reconfigured in less time than conventional conveyor system. As a result, the **FlexMove** Intelligent Transportation System is extremely flexible, allowing a wide range of layout capability and design simplicity.
